

Come and hear from Sheffield people who were in Copenhagen as the COP15 climate talks failed:

- our positive stories of non-violent protest and direct action by a coalition of Southern people's movements, Northern climate activists and non-governmental organisations
- how we developed a deeper understanding of climate justice and committed to say 'yes' to Earth Rights and Human Rights and 'no' to fossil fuels and carbon trading
- what we in Sheffield can do to develop resilient communities and work in solidarity with people from the Global South, for example, learning from the leadership shown by Bolivia

Monday 25<sup>th</sup> January

Quaker Meeting House, St James Street, Sheffield 1
