

The 2008 Inaugural Transition Cities Conference

Exploring the Practicalities of Powering Down
Our Cities...

Thursday 27th – Friday 28th November 2008

Nottingham Arena, Nottingham, NG11LA.

**Nottingham
Arena**

The Transition model of catalysing community responses to peak oil and climate change is spreading around the world, in villages, towns and cities, and is increasingly being seen as one of the seminal responses emerging in these times of great change. Current Transition City initiatives include our hosts for the two days, Nottingham; Bristol, Leeds, Sheffield, London, Brighton, Edinburgh, and many more, as well as more recently, Sao Paulo and Los Angeles!

This event is a gathering of those who have been testing the Transition model in the cities, an Open Space conference to draw together and share ideas and insights, tools and techniques, exploring what works and what doesn't in urban Transition. This event needs your energy, your insights, your imagination and thoughts, and will be designed so as to produce a new set of Principles and Steps for Transition in Cities. Join us in making history!

The event costs just £20 to cover the expenses of organising the event. Information regarding times, location and overnight accommodation in Nottingham can be found at www.transitionnetwork.org/cities/conference. It promises to be a memorable, productive and affirming event, and we look forward to your participation. For more information or to request booking information by phone, contact Kristin and Simone on 0117 963 8323.
